Although would have preferred submitting full text analysis and questionnaire, Dept willing accept in principle shorter version. Will reserve definitive comment, however, until French draft studied here. Consider highly desirable be in position circulate a Four-Power agreed document by February 25 NAC meeting.

Dutch Embassy, as well as Canadians, aware existence analysis and questionnaire. ~~THEY~~ Our tentative thinking is that most satisfactory summary of Four Power document for NAC circulation would include: (1) analysis section (i.e., paras 1-6) largely as it appears in original; (2) "questionnaire" section, reduced to list of main headings for consideration, not presented in specific

question form: END FYI If French report that they are not going to
be responsible, they would not then consider that as a valid reason
in that case of obtaining of Working through. *Heister* ACTING
